ORDERS FORECAST EARLY MILITARY REGISTRATION HERE

MARSHAL SMIDDY GETS ORDERS FROM U.S. TO ACT SUMMARILY WITH DELINQUENT ELIGIBLES

Federal Official Calls on Sheriffs of All Islands to Act in His Name in Enforcing Regulations—All Aliens Come Within Scope of Requirements, Regardless of Applications for Citizenship Papers

"Slackers" and others in Hawaii who, coming within the designated age limit, fail to register for military service when the proper time comes, are to be immediately arrested and prosecuted by the federal authorities.

Late yesterday afternoon U. S. Marshal Jerome J. Smiddy, through a wireless message from Washington, D. C., was instructed by Attorney-General Gregory to be prepared to arrest every male resident of the islands between the ages of 21 and 30, both inclusive, who fails to comply with the registration laws.

Marshall Smiddy announces that he will ask the sheriffs and deputy sheriffs of the several counties to act in his name in enforcing the registration laws, and to make arrests in every instance where slackers are found. The sheriffs and deputies already have offered their services to the government, and Marshall Smiddy intends to take advantage of this offer immediately upon the beginning of registration in Hawaii.

No action is to be taken, however, until the registration actually begins. The federal officials have no definite information as regards the date that will be set for the Hawaii registration. They are of the opinion, however, that this date probably will be fixed by the governor. Arrest and prosecution of slackers probably will be the only part the local federal authorities will play in the registration.

Every male citizen in Hawaii coming within the designated age limit must register, irrespective of nationality, irrespective of the fact that he may later claim exemption, and whether he is a citizen of the United States or not. All aliens, including Germans, must register. Even the convicts in prisons will be required to fill out the blanks. Unless he is an officer or enlisted man of the army or navy, or a member of the national guard or naval militia in actual federal service, no man between the ages of 21 and 30, both inclusive, may hope to escape registration. To do so will mean his arrest and prosecution as a slacker, and one slacker on the mainland recently was sentenced to serve 11 months in prison.

Aliens Exempt from Service
A number of those who register, however, will be exempt from military duty, including, possibly, a limited number of married men, men who might serve their country better in their present employment, and certain aliens with whose countries the United States is at war. Aliens of neutral nations, while they will be required to register, will, of course, not be subject to draft.

Attorney-General Gregory recently issued a warning against efforts to discourage registration, a portion of which reads as follows:
"In addition to the penal provisions contained in the act which makes evasion a criminal offense, section 6

POSTAL CLERKS URGED TO HELP FIND TRAITORS

Acting on instructions from the Department of Justice, through the post-office department, Postmaster D. H. MacAdam has issued an order to all employees of the Honolulu postoffice, to assist the department by reporting immediately to him any disloyal and treasonable acts and utterances, or suspicious persons.

"The Department of Justice is desirous of being informed as to suspicious characters, disloyal and treasonable acts and utterances, and anything which might be important during the existence of the present state of war," said the postmaster today. "To assist it in doing so the department has asked all postmasters and all persons connected with the postal service, to keep on the lookout for such individuals and acts as are referred to in the order I received from Washington."

Postmaster MacAdam has issued instructions to all employees of the local postoffice, to be on the alert for anything which may assist Uncle Sam in catching traitors and others working to defeat conscription and the successful prosecution of the war.

Postmaster D. H. MacAdam said today that he has not yet been officially advised as to what part he will be called on to play when the date for selective draft registration in the territory is set.

"In Honolulu the army is so well represented that I hardly think there will be any occasion for the postmaster's cooperation here," said MacAdam, "but in the outlying districts and on the other islands postmasters will undoubtedly be called on to assist actively in registration of all persons of military age."

\$9000 IN OPIUM TAKEN; JAPANESE PLUMBER NABBED

K. Fujiwara, charged with having 72 tins of opium in possession, has been released from the custody of federal officials under bond in the sum of \$5000. His bondsmen are Choy Ching and L. Ayau. A preliminary hearing of the case will be held on June 25.

Seventy-two tins of opium, valued at about \$9000, were at police station today to be turned over to federal officials, the result of clever detective work last night that brought the arrest of K. Fujiwara, a Japanese who runs a plumbing shop on Beretania street. Fujiwara today was placed in the custody of Marshal J. J. Smiddy. According to the story which detectives have passed on from the Japanese steamer Tenyo Maru as that vessel was passing the windward side recently, Fujiwara had admitted the detectives, that he was informed of the whereabouts of the drug and went over to the other side of the island and dug the 72 tins out of the sand where someone, presumably a confederate of the defendant, had buried it after retrieving it from the water.

Upon examining the tins, Captain of Detectives Arthur McDuffie noticed that the tissue paper in which each tin was wrapped was damp, and later discovered that the damp was due to a previous immersion in salt water. Upon questioning the defendant on this point, he says, Fujiwara told of its being thrown overboard from the Tenyo.

Detectives say that Fujiwara last night was seen to go into a room across from his plumbing shop, which he uses as a storehouse, carrying a large package. A Chinese, happening along at that time, is said to have jokingly remarked to the Japanese: "What you got there? Opium?"

FOOD PIRATES REAP RICHES, SAYS HOOVER

(Associated Press by U. S. Naval Communication Service.)
WASHINGTON, D. C., June 19.—That the food speculators manipulating prices of supplies during war-times are making at least \$50,000,000 a month from their operations was the declaration of Herbert C. Hoover, chairman of food control, in statements to senators today, explaining the administration bill by which it is sought to lower prices and protect the American people.

Bitterly scoring the food pirates, Hoover said that for the past five months they had been making \$50,000,000 a month. He said that flour, which should be \$9 a barrel, costs \$14. He declared also that the bread prices in Belgium are 60 per cent less than those of New York, and that in England and France the bread-prices are from 30 to 40 per cent lower than in New York.

Hoover vigorously disclaimed any idea of trying to establish a dictatorship over the American people. He said that the bill is a war necessity to protect the Americans as well as to guarantee a source of supply to the Allies which will help to win the war. He pointed out that the European Allies are dependent on the United States.

The Wilson administration is trying to convert the opposition to the food control bill. Its opponents are obstinate.

ZURICH, Switzerland, June 19.—Wild disorder bordering on a pitched battle occurred today on the floor of the Austrian reichstag at Vienna when a pro-German delegate declared that the Polish people should all be hung.

A Polish deputy, Dasrinsky, had declared to the reichstag that 30,000 Poles had been hung by order of the Germans. Another delegate, a Pan-German named Heine, shouted, "They have not used rope enough! All of the Poles should be hanged." Immediately there was a rush of Polish deputies at Heine and an uproar ensued, the sitting finally being suspended.

MATSONIA MAY BE USED AS TROOP SHIP; OFFICERS ENROLLED BY U. S.

Head of Steamship Line Seeks to Get Four ex-German Freighters if Government Takes Over Boats—Bookings for Both Steamers Continue

Two days before the Matson liner Matsonia steamed from San Francisco this voyage, she was measured by U. S. navy officers for use as a hospital ship. The day before she sailed naval officers came aboard and enrolled as many of her officers and crew in the U. S. Naval Reserve as would join voluntarily.

While the Matsonia was loading at the coast and had her holds half-filled, the Matson line was notified by Washington to begin preparing the liner for use by the government. Captain Matson at once sent a strenuous protest to Washington, telling how the interests of Hawaii would be injured if he had to cancel the trip and put her island freight back on the dock. In consequence the steamer was allowed to sail this trip.

These are a few of the facts learned this morning from officers of the Matsonia. They are substantiated in part by a letter received in today's mail by E. D. Tenney from Captain Matson, who says the Matsonia can carry 2200 troops.

Adding further complications to the already unsettled status of the Maui and Matsonia, a cablegram received this morning by Castle & Cooke's shipping department, signed by Captain Matson, makes it look as though the two boats may continue in Hawaiian service a few trips longer. The message reads:

"Expect Maui will sail on June 27. Are continuing bookings for
